Temperance Life-Bitters, AND CHINESE BLOOD-PILLS

If The Greatest Secret Discovered! 10

DUKGE purge purge has been the cry for the last few years. This has been effectually tried, and yet sufferers have muluplied and died; and why? Not because purging was not necessary, but too much has been done without the tome to lollow, and sustain the system. Purge, you must The sickly humors of the blood must be carried offor the accumulation of them prevented Prevent, then, the growth of such humors

Why do the Chinese live to such immense ages, and still retain the powers of youth or middle age Because they purify the blood. The Chinese Blood Pulls so called because they work upon and cleanse the blood are the standard remedy. These Pulls will do it, and the Temperance Bitters, taken, as directed, will strengthen the system and prevent the accumulation of the base humors which infest the blood, and which only increase by purges unless the Bitters are taken after Buy, then, these Pills and Bitters Take weekly the Pills and dody the Bitters; and if you are or have been invalids for days, weeks, months, or years, you will find the sickly hu mors drawn off, and prevented from a return, and the sellow yellow line of sickness change rapidly to the full blooming glow of health and youthful buoy-

From the Dover, N H Gizette; D Richardson's Bitters Inour clust me may be found an advertisement of the Vegetible Bitters prepared by Dr 8 O, Richardson, of South Reading, Minss They are, as a sed to be, undoubte fly composed of a variety of valuable and parely regetable matter, and from our own expensence, as well as others, we can speak highly of their removating and invigorating effects upon the system their removating and invigorating effects upon the system We have a good opinion of the interes, as they are not a quick a strum, but discovered, prepared and vends the a rigular physician, a graduits of the College efform awa Sixte, and who has said but little in the way of pulling them himself, but leaves it to those who try them to judge themselves. As good health is one of the greatest of earth y blessings, we would early advise those Jubicing in ler such decess, temple a trial of Dr. Richardson's Bitters, they can do no hirm so may do mue good, as we are confident to mine cases they have. Vegetables and vegetable medicines are unquestionably the most congenial to the human system.

From the News Letter, Exeter N. H. Richardson's Bitters, nevertised in another column are highly spoken of in this victuity by gentlemen who are not in the habit of denking bitlers, lany more than the good girl was in the habit of going to incerting for the pleasure of it). We have no taste for these things ourselves, being quite hitter enough already without the and of rue, worm wood or quasara. Nevertheless, it at ficind with the pre-salent discusses enumerated in the ad-vertisement, and object to become either a pilla wal-lower, or killster bibber, we should be included to call at Gaant's and inquire the way to "Heulth and strength"

From the Bristol County Democrat, Taunton Richardson's Bitters -Of the num-rous medicines which are advertised in our paper from time to time, we pretend to know but little their virtues must be known only to those who have mide use of them. But with Dr & O Richardson's Bitters we are sume whit ac quainte!. These blitters were used in our family last sun mer, for general debility and headache, and much relief was derived from them. Those who may be subjet to nervous head iche, will find the bitters very hereficial-they proved so in the case to which we refer Pursule, wholesale and retail at his office, 15, Hanover street, Boston.

LOOK OUT Counterfetters are abroad; look always for the name of COMSTOCK & Co, on the splendid wrappers, and never buy it without

[From the Boston Chronicle, Jan 10] T - We see by an advertisement in another col-amn, that Messrs Comstock & Co, the Agents for Oldridge's Balm of Columbia, have deputies to sell that article in Boston and elsewhere We know a ady of this city, whose hair was so nearly gone, as to expose entirely her phrenological developments, which, considering that they betokened a most amiable disposition, was not, in reality, very unfortunate Nevertheless she mourned the loss of locks that the had worn, and, after a year's fruitless resort to miscalled restoratives, purchased, some months ago, bottle or two of Oldridge's Balm, and she has now ringlets in rich profusion, glossy and of raven black We are not puffing none of the commodity hatr to a dank brown, and by repeating a second has been sent to us, and, indeed, we do not want grey hair to a dank brown, and by repeating a second mas been gent to us, and, indeed to wear a wig a or third night, to a bright jet black. Any person any, for, though we were obliged to wear a wig a may, therefore, with the least possible trouble, keep year ago, we have now, through its virtues, hair enough, and of a passable quality of our own.

Daring Fraud.

The Apportionment Bill was again taken up, the ratio being in blank, and propositions were made to insert ratios from \$92,000 down to

Mr. Pleaton thought the House should consist of about three times the number of the Senate, and had therefore proposed a ratio of 92,000 to giving a House of 165 members, independent of fractions. Mr Calhoun thought they should first settle the principle whether the ratio should be large or small. He thought the House was too large. In 1810, when it consisted of 140 members, it was nearly as quiet and orderly as the

U. S. District Court.

The following additional rules in Bankruptcy were yesterday announced by Judge Ware. It is understood that these rules tend to conform the practice in this District more nearly than heretofore to that which prevails in the other Districts of the Eastern Circuit, and elsewhere.

In one of the cases called yesterday, the Attorney for the United States had entered an adverse appearance. The petitioner was a surety for a defaulting public officer. The preliminary question being raised whether the first section of the Act is an entire bar to the discharge of de-faulters and unfaithful trustees, Judge Ware expressed his concurrence in the recent decision of the Circuit Court in New York, that the Bankrupt might be discharged from his other liabilities, notwithstanding fiduciary debts, and defal-cations. Holmes, District Attorney, then raised the point, that the surety of a public defaulter could have no other nor further discharge than the principal himself. The hearing on this

point was postponed for the present.
The number of cases on the new docket yesterday was 389, extending, from 609 to 998. Portland Advertiser.

He stood on the top of a precipice and close to a battery when the galvanic poles were brought together, and says the effeet was instantaneous as the lightning's flash from the summer clouds. The hill on which he stood was shaken to its foundation as hy an earthquake, and the riven mass of rocks went crashing down to the depths of the quarry. It was a startling and a beautiful operation. In another care, after a proper disposition of the battery and connecting wires for conveying the galvanic current to the charges of powder, and the assistant, Mr. Wilson was safely ensconsed in the bed of the quarry, the discs were brought in contact, and the whole face of the rock was riven a sunder from top to bottom, and from thice to four hundred tons of stone were from up from dated with a separate table at one dollar per day. the Hill, and came thundering down like an avalanch. THE Steamer EXPRESS will on and after Thursday, the 19th inst: leave Bungos every MONDAY and EHUas SIAY Morning at 5 o'clock for Boston, touching at all intermediate landings, and at Portland, arriving at Boston on Friday Morning; leave Boston FRIDAY Evening for Bancot via Postland Bangor, via Portland.

FARE Always as low as by any other Boat on the line.

As all kinds of misrepresentations have been put in circulation by the enemies of the old line, the Pr. prietors feel themselves bound, for the information of travellers who have not the opportunity of judging for themselves by a practical test of the superior qualities of their new boat EXPRESS, to communicate the following statement of facts in relation to her

1st. She was built by one of the most practical and experienced Steam-Boat Captains and owners in the Country, Capt. William W Coit of Norwich, Connexpressly to run on Long Island Sound, a route as difficult and dangerous as the one she is now employed upon, and was taken from that route after running three months, having commenced her trips Sept.1, 1841, for the reason that there was not travel

sufficient to support her.

2d. Her model, strength, and propelling power are peculiarly adapted to a sea route, her width of beam being 23 feet, and length of keel I50 feet; and the strength and power of her engine are such that the combined force of a head wind, and a head beat sea returd her speed but very little, never making a difference of more than one hour in a passage from Bangor to Portland, (140 miles.) In fact, she is every thing for a traveler that

could be wished, except a large boat She is not a large boat, but still her accommodations are ample, and commodious, as a day boat, for the jegiti-

She is now fitted up with permanent berths in her after and forward cabins, for the accommodation of such as are sea sick, to the amount of fifty; and temporary berths and cots for the accommoda-tion of seventy more, should occasion require her

to be out during the night. The proprietors have the satisfaction further to assure the public that every individual employed on board said boat, from the officers down, are pledged to exert themselves for the comfort and accommodation of her passengers at all times and under all circumstances, and that her superior natural speed, growing out of recent improvements of Models, Engines and Boilergrenders it unnecessary to run any risk by carrying extra steam, in order to compete with any of the old class of boats, and particular instructions have been given that no racing, under uny circumstances, should be permitted.

Pure Extract of Sarsaparilla.

DREPARED by WILLIAM BROWN, Chemist, 481, I Washington street. This is an entire new preparation of Sarsaparilla, without being reduced by the addition of sugar to form a syrup, as it is Rhown by all, that this very much reduces the extract. It is prepared by a new Steam apparatus, that procures the strength without evaporation. It is the only preparation now in use. That our physicians may be made acquinited with its mode of manufacture, a pamphlich has been published and sent to physicians that they may know its qualities. For the past year it has been extensively recommended by them for purifying the blood removing all humors, diseases of the skin, exadicating marcurral effects from the system, ulcera, gc. It is also exercisely used for the rheumatism. For sale size bove, and retailed by all the druggists in Boston. Prov-Pure Extract of Sarsaparilla. no extensively used for the rhoundism.
